Accepted Papers, after virtually presented (Skype/Video), shall be published in conference proceeding with (ISBN: 978-93-85895-44-9) and International Journals

Call for Papers

[Online Submit here](#)

VirtualCom-2016 is aimed at inviting original research papers in the field of, primarily, Computer Science and Information Technology and, generally, all interdisciplinary streams of Engineering Sciences, having central focus on sustainable computing applications, which may be of some use in enhancing the quality of life and contribute effectively to realize the nations' vision of sustainable inclusive development using Computing sciences. VirtualCom-2016 will be an amalgamation of four different Tracks organized parallel to each other and few theme based Special Sessions, as listed below:-

Track #1: Sustainable Computing

Track #2: High Performance Computing

Track #3: High Speed Networking & Information Security

Track #4: Engineering and Emerging Technologies

Track #5: Computational Sciences and Recent Technology

VirtualCom-2016 will provide an excellent international forum for sharing knowledge, experience, recent innovations, trends, and concerns, practical challenges encountered and inclusive growth of economy through IT in critical areas. The primary goal and vision of VirtualCom-2016 is to promote research and developmental activities and to promote scientific information virtually interchange between researchers, developers, engineers, students, academicians and practitioners working in and around the world.

Paper Submission

Authors from across different parts of the world are invited to submit their papers. Authors wishing to submit their papers must refer to the website, for paper structuring and formatting guidelines in detail, at [Author Guidelines](#).
